

WESTON FIGURE WORKSHOP

JUNE 22-25

Join Kim Weston (grandson of Edward Weston) and Mark Comon for two days of photographing artistic nudes on **Wildcat Hill, the famous Weston estate in Carmel, California.** Locations include forest, garden, house, and Kim's working studio. Create amazing images using only the natural light that Kim and Edward made so famous. If you have ever wanted to learn expressive photography and photograph in the "Weston Style", you will love this opportunity. Don't miss out on the chance advance your creativity and shoot with a living legend!

ABOUT THE WORKSHOP:

The Weston Figure Workshop is for most photographers the most challenging and most rewarding workshop they have ever attended. Your creativity and technical ability will be stretched beyond your comfort zone. The experience will yield photos beyond your imagination and immeasurable growth in your technical and artistic skills.

HOW IT WORKS:

Participants will work in groups of two or three photographers so collaboration is paramount and model time is maximized! The Workshop team is there at every step to offer suggestions and guidance. You never feel lost or alone! Our models are true professionals whose helpfulness and patience put first-timers at ease. The models are also our Muses to inspire and stimulate our creativity and expression.

You will have time to shoot creatively, adjust your exposure and direct the light & pose. Models and locations will be rotated hourly so you have the opportunity to photograph in a variety of environments. Teamwork makes camera techniques, light control, posing the model and photo creation simple.

Kim and Mark will provide individualized instruction to help you learn and grow as a photographer. Each day we will review and critique your work to set you on the right track to great images.

"Mark, you were right the Weston Workshop changed my photographic life. Thank you!"
