

STAR TRAILS & LIGHT PAINTING

DEATH VALLEY

Creative night photography after dark is a mystery to many. We've figured it out! Learn how to photograph the spellbinding, spherical movements of stars in the sky, how to change a scene by adding your own light, and how to build drama by integrating star trails and light painting. You'll make pictures that are truly stellar!

How-To Prep Class

Monday Nov 6th 2017, 7-9pm

Learn about the equipment and techniques needed to make creative star trail and night sky photographs. Star trails require long exposures, a sturdy tripod, lockable remote release, specialized software and a spark of imagination. Come learn how to make these captivating images.

Limit – 25 Participants

Post-production Class

Thursday, Nov 16th, 2017, 7-9pm

Process your Star Trails night photography in the digital darkroom hands-on with a CPA educator. Together we will review basic steps to process your images into brilliant, creative star trail images using free software as well as Photoshop and other scripts and techniques. We will review making minor adjustments both before and after your final product.

Limit – 25 Participants

Death Valley Excursion

Sunday-Monday, November 11–13, 2017

Come take photos in this stark and captivating environment. We'll arrive in the afternoon to scout and plan our shots (or you can arrive earlier to shoot Death Valley landscapes). We'll go to work at dusk and shoot until the early hours. Group Rate Paul's Photo **Recommended accommodations: Furnace Creek Ranch. Rooms start at \$205/night.**

It will be loads of fun and we'll make some truly spectacular images together.

Class Details:

- **During the day:** Scouting, post processing and maybe sleeping and at night: Star trails & light painting!
- **Includes:** Location for photographing, "How-To Prep Class" and onsite instruction.
- **Does not include:** Transportation, meals, accommodations (recommended at the *Furnace Creek Ranch*) and entrance fees.
