

Automobile Driving Museum Photo Day

Sunday, March 12, 2017

THE EVENT

Presented by **PAUL'S PHOTO**, **Creative Photo Academy** and the **Automobile Driving Museum**, the **ADM Photo Day** is a wonderful opportunity for photographers of all ages, skill levels, and interests. Located in El Segundo, the Automobile Driving Museum offer a collection of cars spanning the 20th century that you are allowed to touch, sit in, and even go for a ride! Experts from **PAUL'S PHOTO** and **Creative Photo Academy** plus representatives from Canon and Nikon will guide you through a full day of unique photographic experiences and the ADM crew will answer all your historic automotive questions.

Hands-on workshops, staffed stations, and dynamic presentations will inspire participants to make amazing pictures while learning the techniques behind stunning automotive details. We'll add the human touch with professional models to pose alongside the cars in period costumes. All photographers are welcome, from auto fans who want to capture the cars to novice shutterbugs who desire to learn the basics, to the accomplished photographers who are excited to explore new horizons while focusing on the art and science of photography. Join us for an exploration of engineering, design and creativity thru your lens.

Canon **Nikon**
