

# PRIVATE PHOTO LESSONS

Not sure about some new software? Have questions about your camera? Preparing for a trip and want to bring the best out of your photography? Want to get straight to the point? We will pair you with an instructor uniquely suited to your area of interest. Our instructors are professional photographers and educators with years of experience. Tell us what you want to learn and we will partner you with the best photographer to teach you.

*Individualized instruction that fits your specific needs, geared to your pace. It's up to you!*

## HOW IT WORKS

1. After signing up you will receive a phone call with a brief questionnaire so we can get a better idea of what you'd like to learn and which instructor would best suit your needs.
2. We will pair you with an instructor and they will contact you about scheduling a lesson time.
3. First hour's payment required in advance. The reservation of a date and time is scheduled upon receipt of payment. If the lesson goes over one hour, the remainder of payment can be made after the lesson ends. Private lessons will be billed in 15-minute increments after first hour.
