

Yosemite Winter Adventure

March 2-4, 2018

Experience the Creative Photo Academy's **Yosemite in Winter Photo Adventure**. Wonderful scenery, fantastic locations and good friends make for a grand weekend. Learn to produce great scenic images by practicing the rules of exposure, creative composition, proper lens selection, and filter techniques. We provide the technical knowledge and inspiration, you provide the creative desire!

About the Adventure:

The Yosemite Winter Adventure offers fantastic photo opportunities for any photographer. Breath-taking scenery in one of our nation's most beloved national parks will set the stage for creating gorgeous, wintry works of art.

Yosemite National Park in winter is a contrast of towering granite, ivory foregrounds and rushing water. The light, location, and scenery will test the skills of the seasoned veteran or photographic novice and will challenge you to embrace the elements.

- Gates of the Valley
- Leidig Meadow
- Superintendent Meadow
- Swinging Bridge and Merced River
- Mirror Lake
- Happy Isles

Learn to apply the lessons learned in the classroom and use the atmosphere of a chilly winter landscape to create photographs that tell stories and that intrigue. **Yes, it will be cold but the photo opportunities are very hot!**
