

CAPTURING DYNAMIC CONCERT PHOTOS!

THE POWER OF PERSONAL PROJECTS: DRUMMERLOVE

ABOUT THE SHOW

Join photographer Mike Corrado as he takes you on a journey through his photographic creation of shooting performance arts. He invites you into his realm of rock N roll photography and his ongoing personal project **DrummerLOVE** that was born from the sheer frustration of not being able to capture consistently solid images of drummers from the photo pit.

He'll talk about his approach, the successes and failures along the way. You will learn about the power of relationships, dealing with "rock and roll" time and maneuvering around the various management layers of most bands today.

From lens selection, camera settings and wireless technology, Mike will provide you with all of the tools, tips and tricks he's learned along the way to help you make more dynamic concert photos.
