

NEW ORLEANS

MAY 6-11, 2018

About the Adventure

Let the good times roll on the New Orleans Photo Adventure. The Crescent City is the United States' most unique and colorful city. Capture 300 years of Cajun, Creole and French culture, architecture and cuisine with the crew from Creative Photo Academy.

Unique city-scapes, city lights images, street people and the fantastic bayou scenery will stimulate you to be at your creative "best." On site instruction will provide you with the tools to make great photographs.

Walking the streets, enjoying the jazz music and eating sumptuous Cajon faire are our draw to New Orleans. Southern Plantations, bayous and swamp country shooting will lead us to new ideas, new thoughts and fantastic images. No matter what camera you shoot or what images whet your whistle you are in for a treat!
