Desert Figure Workshop

October 24-28, 2026

You are invited to experience the Desert Figure Workshop. Join Mark Comon and the CPA Team for four days of photography capturing artistic nudes in the desert, near Death Valley. You will experience the peace of the Mojave Desert, the beauty of our amazing location and the creativity of Figure Photography.

Our location allows us to shoot in the vast desert, around the eclectic property, and funky interiors. You will create superb images using only the natural light. Photographers will work in teams of two so collaboration is paramount!

Your CPA Educator will be at your side to assist!
You won't have to go-it alone.

Our models are real pros and quite helpful and patient, especially with first-timers. You'll have more-than-enough time to shoot creatively, adjust the light and direct the posing.

Models and locations will be rotated so you can experience all of the subjects and locations. Participants will learn to "camera handling" techniques, control of natural light, working with a model and how-to create photos with emotional content. The CPA Team will work together to make sure you succeed photographically! This is not a weekend for every photographer, but if you have ever wanted to learn expressive photography and photograph figures in the "Classic Style" you will love the opportunity. Don't miss the opportunity!

Desert Figure Workshop, October 24 -28,2026 $4799 Includes Lodging and Meals
